About Us

KiwiRail’s Role in Aotearoa, New Zealand

KiwiRail, a proud State-Owned Enterprise, delivers sustainable and inclusive growth for our customers, communities, and people.

For more than 150 years, rail in New Zealand has connected communities, delivered freight and passengers around the country, and showcased our spectacular scenery to the world. Our purpose—Hononga Whaikaha, Oranga mo Aotearoa (Stronger Connections, Better New Zealand)—speaks to connection with our customers and the future needs of their businesses, connection with the communities we serve and operate in, and connection with each other. KiwiRail is carrying this legacy into the future, delivering connected rail and shipping transport services that create economic, social, and environmental value for New Zealand and New Zealanders.

Our Workplace

At KiwiRail, our values define the behaviour we expect from everyone. We have a team of over 4500 people, and every connection we make with each other, our union partners, our customers and all our stakeholders must be of the highest standard.

Safety, health, and well-being are our number one priority, ensuring our people return home safe and healthy every day.

About the Role

Purpose of the role

KiwiRail is undergoing a significant transformation to modernise and grow our rail and Interislander ferry services across Aotearoa. This role plays a pivotal part in planning, executing, and delivering the technology initiatives that enable this transformation.

The Project Manager will be accountable for the end-to-end Billing & Rating modernisation project, spanning discovery, design, and delivery. The programme will replace or modernise KiwiRail's billing capability by first establishing a strong data and integration foundation, then progressing through solution selection, implementation, and transition.

Success in this role requires strong governance and delivery discipline, ensuring projects are delivered on time, within scope, and on budget, while aligning to KiwiRail's strategic objectives. Equally critical is the ability to build and maintain effective relationships across a broad range of business and technical stakeholders to achieve sustainable, long-term outcomes.

Key Accountabilities

Within the area of responsibility, this role is required to:

- Define project scope, objectives, and deliverables. Develop detailed project plans, including schedules, budgets, and resource allocation.
- Coordinate and manage project teams, including ICT specialists, vendors, and other stakeholders, ensuring resource availability and allocation.
- Identify, analyse, and mitigate project risks, resolving project issues promptly to prevent delays.
- Communicate project updates and progress to stakeholders, including senior management, managing expectations and ensuring alignment with project objectives.
- Track project performance, preparing and presenting reports to stakeholders on the status of the project.
- Monitor project expenditures to ensure adherence to the approved budget, managing any changes to the project scope and cost through established governance processes.
- Ensure that project deliverables meet predefined quality standards ensuring appropriate testing, reviews, and evaluations as required.
- Complete all project deliverables and documentation, conducting post-project reviews to identify lessons learned and opportunities for improvement.
- In collaboration with the ICT Delivery team, as part of your project day to day operations continuously analysing performance, identifying opportunities, and making incremental changes to processes with the aim of improving the performance and outcomes of your projects.

Key challenges

- Managing the appropriate allocation of resources in a high demand yet cost saving environment
- Ensuring support and engagement of wide ranging stakeholders
