

Rail Network Rebuild

JULY RAIL WORKS IN PAERATA

July 2025

Dear neighbour,

KiwiRail is continuing to rebuild and upgrade Auckland's rail network to make train travel more resilient and reliable and to prepare the network for the faster, more frequent trains the City Rail Link (CRL) will bring when it opens next year.

Our teams will be taking the opportunity when the Southern Line is closed to undertake some further foundation improvements. **This will mean that some material will be transported and stored in our usual access site at Sim Road, near your property.** This will occur during some of the June-July school holidays (**1-10 July**) when there is a partial shutdown of the Auckland rail network.

This work is part of our Rail Network Rebuild (RNR) programme that is replacing aging foundations and completing enhanced maintenance to make our rail network more resilient.

KiwiRail will likely return in the September school holidays and the 2025-26 summer rail closure period to complete this work. We will update you on this closer to the time.

To find out more visit kiwirail.co.nz/aklrailrebuild.

Upcoming dates

Transporting and storage of ballast:

- **During June-July school holidays:** 6am Tuesday 1 July – 6pm Thursday 10 July (day works only)

If you have any queries about our work, contact our Community Engagement Team via **contactus@kiwirail.co.nz** or **0800 801 070 ext 43042**.

To receive future work notifications by email, send your address with your details to the contacts above.

How this affects you:

Our teams are aware they are working close to neighbouring properties and will do all they can to minimise any disturbance. However, there is likely to be noise and increased vehicle movements from this activity; we apologise in advance for this.

Traffic management will be in place in some areas. There will be increased truck movements, work trains and rail vehicles operating. Please take extra care around the network.

Thanks for your patience while we carry out this important work - The KiwiRail team.
