

Rail Network Rebuild

MANUREWA RAIL WORKS: 24/7 CONSTRUCTION

June 2025

Dear neighbour,

KiwiRail is rebuilding the rail network in your area to make rail travel more resilient and reliable and to prepare for the faster, more frequent trains the City Rail Link (CRL) will bring when it opens next year. We are undertaking a major upgrade of our rail network between Papakura and Wiri, including Manurewa.

Over the June-July school holidays, KiwiRail will continue to replace aging foundations and upgrade drainage under the tracks in the rail corridor near your property. Some of these works will happen day and night so we can complete them as quickly as possible.

KiwiRail land at Homai Station, a nearby Fulton Hogan yard and our property further south at Beatty Avenue will be used as access points for vehicles needed for this work. We may also use an additional access point at Gloucester Road.

This is during a partial closure of the rail network (28 June to 13 July) when there are no trains running south of Puhinui Station in Papatoetoe. Check before you travel at at.govt.nz/railclosures

Work will continue at this location over another partial rail closure scheduled for the September-October school holidays.

The rebuild work replaces aging foundations under the tracks and upgrades drainage to make them more resilient to weather events. The work allows trains to be more reliable and helps get the network ready for the CRL.

Upcoming dates

24/7 construction works to upgrade Homai Station rail infrastructure:

- **June-July school holidays:**
7am Saturday 28 June – 6pm
Sunday 13 July: 24/7 works
- **20 September to 5 October school holidays:** 24/7 construction works

What we are doing:

The Rail Network Rebuild work will improve reliability, allow more frequent trains and improve the ride for passengers. The work involves the following steps:

- Cutting and removing existing track and sleepers
- Using small excavators to build new drainage structures
- Digging up and rebuilding foundations, excavating and replacing ballast
- Laying tracks and sleepers, connecting, re-aligning and balancing tracks.

Thanks for your patience while we carry out this important work - The KiwiRail team.

KiwiRail 

Night works – what you can expect

We are undertaking major track works in your area. During this work there may be noise, dust, vibrations and lights needed to keep the workers safe at night.

Our teams will be mindful of working near residential properties and aim to get the job done as quickly and quietly as possible to minimise disruption. However, despite their efforts this work may cause you some disturbance and we apologise in advance for this.

There will also be increased vehicle movements near Homai Station, a nearby Fulton Hogan yard and our property further south on Beatty Avenue, so please take extra care when in those areas. We may also use an additional access point at Gloucester Road.

Work areas and the vehicle access points are shown in the map below:
