

MAJOR WORKS NOTICE

December 2025

Dear neighbour,

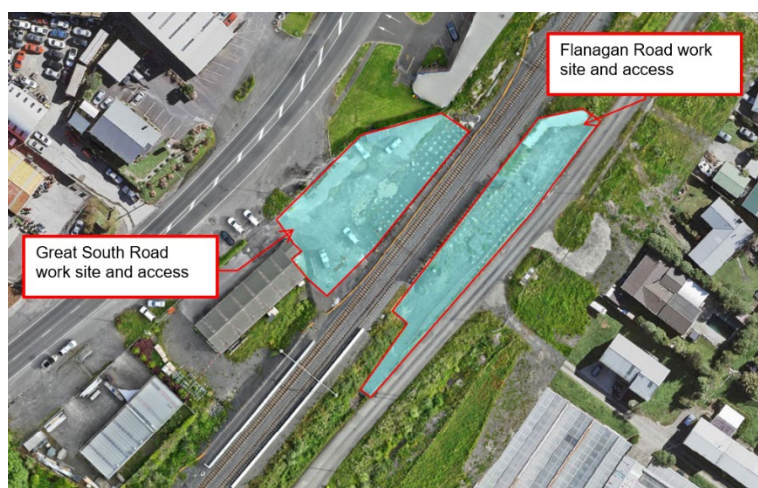

To prepare for future growth in south Auckland, KiwiRail is building three new railway stations between Papakura and Pukekohe. Combined with extending the electrification to Pukekohe, the new stations will make travelling by train more accessible to those living and working in the area.

Teams continue to work hard on site and are now preparing to make the most of the extended summer rail closure to further progress the work.

What happens next?

Teams will carry out further structural, construction and carpentry works. They will also begin landscaping works and the installation of necessary services. From **6am Saturday 27 December – 6pm Sunday 18 January**, our work hours will be 24/7.

Construction works will take place on both sides of the rail corridor; however, teams will only work night shifts on the station build. There may be noise from machinery, lights and vehicles moving around. Our staff and contractors are mindful of our rail neighbours and will work hard to minimise any disturbance, to get this essential work done as quickly and quietly as possible. Where possible, noisier works will be scheduled to take place during the day shift. However, despite our best efforts, this work may cause you some disturbance and we apologise for the inconvenience.

There will be an increase in truck movements during working hours, please be mindful of this when travelling in the area. Please note the **NZTA SH1 Papakura to Drury project** and **NZTA Waihoehoe Road upgrade** are also underway and may contribute to noise and traffic congestion. Further information can be found on www.nzta.govt.nz/p2b or <https://nzta.govt.nz/projects/south-auckland-projects/waihoehoe-road-upgrade>
