

MANUREWA RAIL WORK

December 2026

Dear neighbour,

*KiwiRail will be undertaking work in the rail corridor from **27 December to 10 January** between Mcvilly road and Beatty Avenue, Manurewa from 6am-6pm.*

***What we are doing:** Teams will be undertaking minor civil and cabling works related to the overhead electric lines. This will involve excavators and special machinery operating here throughout the duration of the work.*

Teams will be accessing the rail corridor via Beatty Avenue, Mcvilly Road and Dalgetty Drive

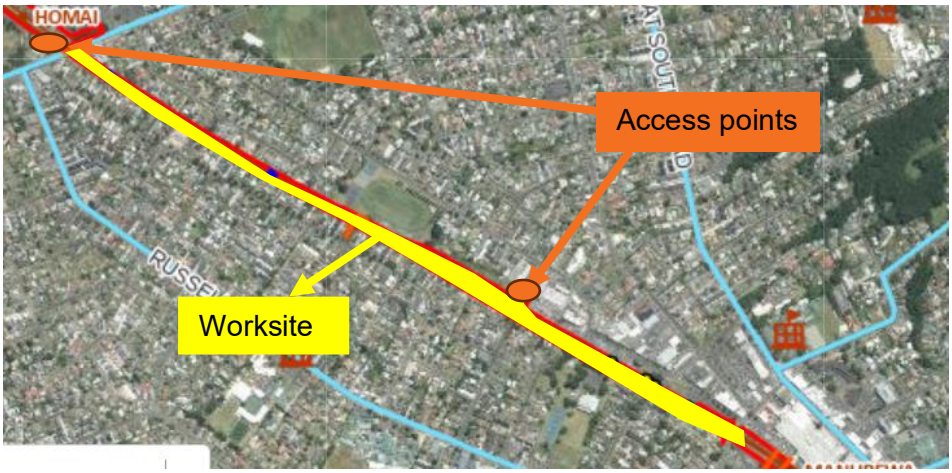

Our staff and contractors are mindful of our rail neighbours and will work hard to minimise any disturbance, to get this essential work done as quickly and quietly as possible. However, despite their best efforts, this work may cause you some disturbance and we apologise for the inconvenience.

Why are we doing this work?

This work is part of KiwiRail's Single Line Running Traction Switches (SLRTS) project, which is progressively installing new and upgrading existing traction switches and associated infrastructure across the network, as part of modernising the way we undertake maintenance.

This work will support faster and safer isolation of our overhead power supply, meaning our teams can undertake maintenance more efficiently. It is part of the wider project to enable adjacent lines to work where teams can work on one section of the line, whilst trains run on the adjacent line.

Worksite

Upcoming Dates

27 December 2026 – 10 January 2027

6am – 6pm
