

# HENDERSON RAIL WORKS: MATERIALS DELIVERY

November 2026

**Dear neighbour,**

KiwiRail is carrying out its regular programme of scheduled rail asset renewals to ensure a safe, reliable and resilient network as Auckland moves into an era of more frequent train services.

We plan to upgrade level crossing infrastructure at various locations across the East West Line (which combines the old Eastern and Western lines) in January. In preparation for this, we will be **using our land at Mihini Road, Henderson, for the delivery and storage of ballast**, the rocks that rails sit on, for our forthcoming works.

**The material will be delivered in dayshifts between around 7am to 5:30pm from Monday, 9 November until Wednesday, 18 November 2026**.

The team will keep a close watch on any dust production and regularly water down the area.

There will be noise, dust, vibrations and increased vehicle movement from trucks and diggers operating on the site. Please exercise caution when in the area.

Our teams are mindful that they are working near neighbours and will do their best to keep disruption to a minimum. However, despite their efforts this work may cause you some disturbance and we apologise in advance for this. Our work area is marked in the below map:

## Upcoming dates

- **Monday 9 November to Wednesday 18 November**: materials delivery to Mihini Road (7am to 5:30pm)
- **2 to 10 January 2027:** Upgrade of five sets of rail level crossing infrastructure across the East West Line
- **2 to 10 January 2027:** no passenger services west of Kingsland
