PUKEKOHE RAIL WORKS

October 2026

Dear neighbour,

On **7 and 8 November**, KiwiRail teams will be undertaking track remediation works in Pukekohe. During this period, **teams will work 24/7** to get the work done before rail services resume on Monday 9 November.

Teams will access the rail corridor from Logan Road. Please exercise caution when in the area.

There will be noise, dust, vibrations and increased vehicle movement from trucks and diggers operating on the site. Our teams are mindful that they are working near neighbours and will do their best to keep disruption to a minimum. However, despite their efforts this work may cause you some disturbance and we apologise in advance for this.

Teams will need to return to this location during the upcoming summer rail closure to renew rail infrastructure. This work will involve excavating and replacing ballast, as well as installing new sleepers. Teams will access the rail corridor for this work from Station Road.

How this affects you:

Teams will need to lift the rail infrastructure to undertake remediation work of existing drainage and formation. This will be noisy work, with machines and KiwiRail teams working in the area.

Once the work has been completed, the infrastructure will be put back in place, and the tamper will then travel across the section of the network.

Shifts will be 24/7 from Saturday 7 November through to Sunday 8 November, and 24/7 from Sunday 27 December through to Sunday 10 January.

Please see overleaf for worksite maps for both periods.

Upcoming dates

24/7: Saturday 7 – Sunday 8 November

24/7: Sunday 27 December – Sunday 10 January
