

WALTERS ROAD LEVEL CROSSING WORKS

October 2026

Dear neighbour,

On **7 and 8 November from 6am-6pm**, KiwiRail teams will be undertaking track remediation works on the Walters Road level crossing.

During this period, there will be a partial closure of the Walters Road level crossing, with Stop/Go traffic management in place.

Please follow all signage and personnel instructions, and please exercise caution when travelling in this area, as there will be an increased number of machinery and trucks.

Our staff and contractors are mindful of our rail neighbours and will work hard to minimise any disturbance to get this essential work done.

If we are unable to complete the work during this access window, teams will need to return over the upcoming summer rail closure in January 2027. If this is required, advance notification will be provided.

How this affects you:

Teams will need to lift the rail infrastructure to undertake remediation work of existing drainage and formation. This will be noisy work, with machines and KiwiRail teams working in the area.

Once the work has been completed, the infrastructure will be put back in place, and the tamper will then travel across the section of the network.

Shifts will be 6am-6pm from Saturday 7 November through to Sunday 8 November.

Worksite and level crossing partial

Upcoming dates

6am-6pm: Saturday 7 – Sunday 8 November

Contingency: January 2027
