

Important contextual information regarding the Third Main Business Case

“Wiri to Westfield – The Case for Investment” is a final draft business case that KiwiRail included in its Crown funding proposals for FY17/18. KiwiRail collaborated with NZTA and Auckland Transport during the preparation of the document, but neither of those agencies has formally adopted or approved it. The business case is a KiwiRail document. The document footer naming NZTA is a formatting error and NZTA should not be considered to be the author of the document.
